

URGENT TAXPAYER ALERT

***An important message from
Chris Mann, President of the Inland
Empire Taxpayers Association:***

“Measure G safeguards taxpayers. It avoids a costly bankruptcy of our local hospital district, and brings in new management—a nationally recognized management firm. Our hospitals are losing millions every month—and Measure G will turn this around, at no cost to local residents. We urge you to vote **yes on G.”**

An urgent message from Lew Uhler, President of the National Tax Limitation Committee...

Dear Taxpayer:

Back when Ronald Reagan was Governor of California, I was proud to serve as Chairman of the Governor's Tax Reduction Task Force. Since then I have spent four decades fighting to protect citizens against wasteful government spending, and for ballot measures that protect taxpayers. In 1990, I was the co-author of the successful Proposition 130, California's pioneering state term limits initiative.

Every so often a local measure is on the ballot that so strongly benefits and protects taxpayers that I will personally endorse it—and that is the case with Measure G.

Right now, as a taxpayer, you are at risk. Your local public hospital district is operating at a deficit, and has pretty much run out of money. Still, every month the district is losing about \$2 million. They ended the last fiscal year with \$13 million in debt on the books. Frankly, the district is teetering on the edge of bankruptcy.

Let me tell you, I have seen over and over again who pays the bills when public entities run out of money—the taxpayers. In this case—YOU.

That is why your vote for Measure G is so important. Measure G, if passed, would bring in a credible private company to run our local hospitals, and would mean an immediate infusion of over \$100 million in resources to modernize hospitals and ensure that local emergency rooms continue to stay open 24/7—all with no taxpayer bailouts or massive borrowing schemes.

It is also significant to note that along with an infusion of resources to produce world-class hospitals at no additional cost to taxpayers, this agreement also brings into place a new management team—Quorum, a nationally recognized hospital management firm.

In closing, I am pleased to join with the Inland Empire Taxpayers Association in strongly urging your support for Measure G. It's about improving the facilities and quality of healthcare at local hospitals, it's about avoiding a costly bankruptcy, and it's about protecting you, the taxpayer.

Sincerely,

Lew Uhler, President
National Tax Limitation Committee*

Let me tell you, I have seen over and over again who pays the bills when public entities run out of money—the taxpayers. In this case—YOU.

In closing, I am pleased to join with the Inland Empire Taxpayers Association in strongly urging your support for Measure G.
